

ACULEO

Buzz Beacon™

THE ULTIMATE HONEY BEE LURE.

The Aculeo BuzzBeacon™ is a versatile, patented attractant designed to draw sugar-foraging and scout honey bees to Aculeo devices, including BuzzBox™ and ScoutStop.™ It delivers consistent attraction across diverse environments and conditions. It is also used by beekeepers to lure and move groups of bees. Best of all, no pest control license required.

BuzzBox™

Powered by BuzzBeacon™

- BuzzBeacon™ installs into BuzzBox™ to attract sugar-foraging honey bees to the device, guiding nuisance activity away from guest areas into controlled zones
- Disrupts the communication cycle that leads to escalating nuisance activity.
- Protects people while reducing unnecessary colony loss.
- Scales with the placement of additional BuzzBox™ units and is maintained through regular BuzzBeacon™ refills.

IDEAL FOR:

Trash corrals, soda stations, outdoor dining areas, resorts, campuses, and poolside concessions.

ScoutStop™

Powered by BuzzBeacon™

- BuzzBeacon™ installs into ScoutStop™ to attract scout honey bees during nesting site evaluation.
- Intercepts scout honey bees before they can communicate the location of a potential nesting site, dramatically reducing the chance of structural infestation.
- Reduces structural infestation risk without unnecessary colony loss.

IDEAL FOR:

Pest Control Operators (PCOs) and distributors supporting retail, restaurants, hotels, schools, warehouses, and campuses.

Available in a variety of durations and pack sizes to fit your needs.
